

4 Steps To A Better Deck

1

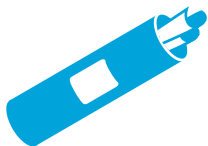

Create Templates

Order a Template Kit

Use kit's supplies to create templates of your boat's layout

Ship templates back to us for a quote

Record Date Completed

2

Approve Design

We'll e-mail you a quote for your project, and collect a deposit when you're ready to proceed

Our fabricators will determine the best fit solution and e-mail you a PDF of the proposed design to review

If the design is satisfactory, sign PDF and return

Record Date Completed

3

Test Fit

We'll ship you actual-size drawings of the OrthoDek sections. Cut out the sections and confirm they fit their intended spaces

Draw desired changes on sections that need alterations, and return to us. Complete approval checklist

If alterations were requested, we'll e-mail you a final PDF to approve changes

Record Date Completed

4

Fabricate & Install

Allow 2 weeks for fabrication

We'll ship you your quality-verified product

Install according to provided instructions

Enjoy your superior decking!
